

NON-MEDICAL SWITCHING & VISION CARE

Sometimes finding the right medication
**CAN TAKE MONTHS,
EVEN YEARS.**

THROUGH NON-MEDICAL SWITCHING,
insurers may push stable patients to a more
profitable medication by:

Making cost-sharing for their
current medication unmanageable

Eliminating coverage
for their medication altogether

NON-MEDICAL SWITCHING MAY LEAD TO:

**Worsening
symptoms**

**New
side effects**

**Reduced
quality of life**

Non-medical switching is
**BAD MEDICINE FOR
VISION PATIENTS.**

**VISION HEALTH
ADVOCACY COALITION**
