

# VISION HEALTH FOR AUTOIMMUNE PATIENTS

Many patients don't realize their **AUTOIMMUNE CONDITION** COULD IMPACT THEIR SIGHT

## A VISION CONDITION

like thyroid eye disease, uveitis, or Sjögren's syndrome may develop as a:

Byproduct of an **autoimmune condition**

**Side effect of treatment** for an autoimmune condition

Independent **health condition**

## IF VISION SYMPTOMS GO UNCHECKED, PATIENTS CAN:

Face severe pain

Develop serious conditions such as **cataracts** or **glaucoma**

Experience **eye damage** or permanent vision loss

**MANAGING AN AUTOIMMUNE CONDITION MEANS MANAGING VISION HEALTH TOO.**
